Crystal-Clear Ice Ball Maker

Quick Start Guide

- 1. Wash plastic parts inside from Dish. Fill with warm to hot water to the top of the bottom of the inner lid. The label is from top.
- 2. Assemble silicone mold and slowly lower all the way into the water filled with water. Water should overflow into the area above the lid holes. Top of lid necessary.
- 3. Place weight in freezer for 20-30 hours.
- 4. Remove from freezer and peel out mold by pulling on both of the handles on one of the ends.
- 5. Separate the two mold halves and serve for or store for later.

Enjoy
