

**Heat Resistant 100% Silicone Donut Pan, LFGB 9 Cavity Silicone Donut Mold, BPA free
Silicone Cake Mould**

Size: 28*28*2.7cm, weight: 205g

Specifications:

1. Baking homemade donuts are delicious and nutritious! The non-stick, 9-cavity doughnut pan is perfect for baking your favorite recipes. They solve the problem of the donuts always getting stuck to the pan.
2. The flexibility of silicone allows the pan to be folded without damage, and it simply unfolds back to its initial shape.
3. You could remove the doughnuts from these silicone baking pans easier than the traditional plastic or aluminum molds.
